university courses scheduled from September 1, 2001 **PAYMENT PERIOD:** Payments are authorized for
 through August 31, 2002.

a program designed to identify well-qualified and highly motivated CPS high school juniors and to encourage them to pursue a college education. The students are dually enrolled in the Chicago Public Schools and in one of approximately 100 courses available at local colleges and universities receiving both high school AP course credit and undergraduate college credit. Courses in behavioral/social sciences, science, English, foreign languages, math, computer science, and fine arts are offered. In addition, each university provides a program of individualized counseling and support for the high school students. The number of participating CPS students estimated per university is 100. The program is designed to cover tuition costs as well as book and transportation costs.

S: The primary outcome for the College Bridge Program is the successful completion of the dual credit courses by the enrolled CPS juniors and seniors. By earning college credit, College Bridge students are able to advance placement into college degree programs. The program also provides advanced placement high school scholarships to four-year college degree programs. The program increases the opportunities for acceptance and success in college. The College Bridge Program fosters the development of rigorous academic achievement of highly motivated and talented students.

AFFIRMATIVE ACTION: Pursuant to Section 3.7 of the M/WBE Plan, this contract is exempt from review under the M/WBE Plan due to the fact that the award will be used to pay tuition and book fees.

LSC REVIEW: Local School Council approval is not applicable to this report.
