## ADOPT NEW BOARD RULE 4-8.3. UNUSED SICK DAYS TAX DEFERRED CONTRIBUTION PLAN

## THE GENERAL COUNSEL RECOMMENDS:

The General Counsel recommends adopting Board Rule 4-8.3 to establish an unused sick days tax deferred contribution plan for pension eligible employees at the time of their separation.

TEXT:

| Effortive lui  | Effective July 1, 2004 in Jieu of the amount payable to cligible full time ampleyees at the time of |                          |                       |                      |
|----------------|---|--------------------------|-----------------------|----------------------|
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          |                       |                      |
|                |   |                          | g., B.                |                      |
|                |   |                          | 2.1                   |                      |
