reports. The integrated library automation system will include Web-based Online Public Access Catalog, Cataloging and Authority Control, Circulation, Serials Control, and Reporting capabilities. In addition to

this core functionality, the system will continue to support integrated searching of print and electronic resources and the inclusion of vendor and third-party supplied content such as images of book jackets, previous reading level data, and author information. Should the Board desire to expand the

Coordination of school and public library resources and services: A centralized system is a prerequisite for coordination among schools and with the public library system, as it enables searching of all schools' and potentially the Chicago Public Library's records. In addition, the system can be used to

loan resources across the district

COMPENSATION:

Vendor shall be paid during this second option period for implementation services upon invoicing and completion and acceptance of deliverables/milestones and shall be paid a license fee in accordance with the prices and the deliverables stated in the renewal agreement. The total compensation payable to the
