EARLY TERMINATION RIGHT:

SCOPE OF SERVICES:

Vendor will provide a developmental screening tool for all preschool programs. In order to align screening tools across Chicago early preschool programs, CPS will utilize this screening tool. The Early Screening Inventory Third Edition is a developmental screening instrument that addresses a student's developmental, sensory, and behavioral levels (published by Pearson). Teachers are the primary user of this tool and results are often shared with families as needed. The Parent Questionnaire Report details responses to the parent questionnaire, a qualitative questionnaire to capture the primary caregivers' perceptions of the child's development. Child scores are used to refer students for further evaluation, group students to meet developmental milestones, and identify activities to continue learning in the home environment. Pearson will provide the Office of Early Childhood Education (OECE) with physical copies of all materials within the Early Screening Inventory (ESI-R) Third Edition as requested and paid for by CPS. The ESI-R is a research based developmental screening tool that meets the screening purposes required by the Boards grant with the Illinois State Board of Education and ExcelRate Illinois (the State of Illinois early childhood program rating system). This screening tool will be available in English and Spanish. Early childhood teachers will use the ESI-R results when referring a child or evaluating a child for specialized services.
