

Three Line Model of the role of factory leaders in an organization
1. First line: Directly responsible for the day-to-day operations of the organization
2. Second line: Support the first line and ensure compliance with policies and procedures
3. Third line: Monitor and evaluate the performance of the first and second lines

The Board of Management and its role in the organization
1. All activities need to be aligned to achieve the organization's objectives and mission

Envisioning the future
